

2015 Survey on the Feasibility of Instituting Fees for POST Products and Services

This survey consists of 6 questions and will take minimal time to complete.

In February 2015 the POST Commission approved a study of the feasibility of instituting fees for some POST products and services. POST has historically provided products and services free of charge to law enforcement entities participating in the POST program.

However, due to continued budget challenges and declining revenue, POST is considering instituting a fee based structure for some products and services. Your time is appreciated and your responses are essential as POST considers a fee based structure.

If you have any questions, please contact Assistant Executive Director Stephanie Scofield at 916-227-2809 or stephanie.scofield@post.ca.gov.
