**To:** Paul Cappitelli,  
Executive Director

**Date:** June 7, 2012

**From:** Karen Lozito,  
Commission on Peace Officer Standards and Training

**Subject:** Isleton Police Department

On August 1, 2009, the Isleton Police Department was reinstated to the POST reimbursable program after suspension for significant deficiencies related to selection and training standards for peace officers as required by state law and Commission regulations. POST compliance audits of agency records in 2011 determined the hiring and training practices of the Isleton Police Department complied with POST regulations.

In May 2012, the Isleton Interim City Manager placed Police Chief Steven Adams on paid administrative leave and ceased operations of the Isleton Police Department. The Sacramento Sheriff's Department has assumed responsibility to respond to life-threatening or critical emergencies involving incidents in Isleton.

POST staff has received information that three of four peace officer personnel files, including Chief Adams', have been missing since the Chief was placed on leave.

POST staff will monitor the situation to assess efforts by the Isleton Police Department to continue to operate and conform with Commission Regulations.
