RE: Commission on POST Advisory Committee

The California Academy Directors' Association is concerned with the proposed restructuring of the POST Commission Advisory Committee. At the last Advisory Committee meeting, you proposed reducing the Commission Advisory Committee. We are disappointed the proposal occurred without previous review or discussion with current stakeholders.

The proposal diminishes the level of collaboration between POST and the entities who have, for so long, contributed to furthering the development of law enforcement training and testing. Of the eight members suggested for exclusion, four represent key educational entities whose essential missions include creating and delivering law enforcement training and career development.

The proposed downsizing is incongruous with the stated desire to expand communication between the Commission on POST, POST Staff and the broad spectrum of concerned allies in the profession. The proposal abolishes participation by entities charged with providing basic, intermediate and advanced Law Enforcement (LE) training.

For example, the Office of the Community College Chancellor, the California Association of Administration of Justice Educators (CAAJE), and the California Academy Directors' Association, (CADA), exemplify wide-ranging LE training expertise. Each entity has enjoyed an extensive history of participation in providing training excellence. The proposed removal of these organizations signals a lack of appreciation for their contributions to the LE training mission. The same can be said regarding the contributions of The California Association of Police Training Officers (CAPTO). Removal of CAPTO disregards their voice in support of LE professional development. CAPTO's mission is in line with the mission of the Commission on POST.

The memberships you wish to retain on the committee represent local, regional and statewide agencies whose focus tend toward more parochial concerns as indicated by their mission statements. Their concerns are more closely related to specified needs, versus more global concerns surrounding basic, intermediate and advanced law enforcement training, development and delivery.

The California Academy Directors' Association respectfully requests you table this recommendation until a collaborative discussion, involving all stakeholders, occurs.

Lanny and Damien,

For the October Commission meeting we have an anomaly. Even though CADA is transitioning to have Damien represent at the Advisory Meeting, the Commission has not yet formally approved it, so for the time being the rep can only be Lanny. The reason for this is during the lengthy discussion with respect to the future of the Committee, the Commission made a decision to keep all existing members (not positions) on the Committee until the October meeting. It's a matter of technicality, and I anticipate they will make the change to Damien when they meet for future meetings.

Sorry for the confusion,

Scott

Commissioner Dudley,

I have served as a Public Member on the Advisory Committee since October 2010. It has been a pleasure working with all the dedicated individuals from the Commission, POST staff and the Advisory Committee. Recommendations made to the Commission by the Advisory Committee require the attention of every seated member and a commitment to researching important items brought forth by the law enforcement community we serve. I have strived to fulfill that responsibility the past nine years and would be honored to serve another term.

Please consider my request for reappointment to the Advisory Committee as a Public Member.

Respectfully,
